

# Welcome!

Attending La Leche League meetings can help you learn about breastfeeding from other nursing mothers. At our monthly meetings, mothers share not only their questions and concerns, but also the benefits and joys of breastfeeding. Being in touch with La Leche League can give you a network of support you need.

Breastfeeding is a simple and natural process, but you may need support and information on the correct positioning of the baby at the breast, working and breastfeeding, avoiding problems, and overcoming any difficulties that may occur. Knowing other women who have breastfed their babies can be helpful and reassuring. Having accurate, up-to-date information is also important.

Pregnant women, mothers, babies and children are always welcome!

**“Extensive research, especially in recent years, documents diverse and compelling advantages to infants, mothers, families, and society from breastfeeding and the use of human milk for infant feeding. These include health, nutritional, immunologic, developmental, psychological, social, economic, and environmental benefits.”**

- The American Academy of Pediatrics, 2005

**LA LECHE LEAGUE**  
INTERNATIONAL

*La Leche League is an international non-profit, non-sectarian organization dedicated to providing information, support, encouragement, and education to women who want to breastfeed.*

*La Leche League Leaders are volunteers who have happily breastfed their own children. They are accredited by La Leche League International and offer practical information and moral support to breastfeeding mothers through monthly meetings and telephone counseling.*
